

ALBERDINGK® AC 27401

HYDROXY-FUNCTIONAL ACRYLIC

DESCRIPTION

AC 27401 is a medium hard, high OH functional acrylic emulsion. When cross linked with a polyisocyanate, it provides outstanding chemical resistance for a variety of substrates.

FEATURES

- Medium hard resin
- Excellent chemical and hot tire resistance

TYPICAL PROPERTIES

NVW (%)	38
pH	8
Visc (cps)	500
MFFT (°C)	15
Tg (°C)	20
HEW	944

APPLICATIONS

wood
plastic
metal
concrete
