

ALBERDINGK® AS 26080

STYRENE ACRYLIC

DESCRIPTION

AS 26080 is an APEO-free styrene acrylic emulsion designed for consumer electronic plastic coatings. Its high styrene content gives a high MFFT and hence excellent hardness, adhesion, and scratch resistance.

FEATURES

- Adhesion to plastics
- Excellent surface hardness
- Excellent scratch resistance
- Good chemical resistance

TYPICAL PROPERTIES

NVW (%)	50
pH	7.5
Visc (cps)	200
MFFT (C)	80

APPLICATIONS

Consumer electronic plastics
