

## ALBERDINGK® AS 2681

### DESCRIPTION

AS 2681 is a medium Tg standard styrene acrylic that can offer adhesion to a variety of substrates and good water and humidity resistance.

### FEATURES

- Excellent adhesion to metal and plastics
- Chemical resistance
- Water and humidity resistance

### TYPICAL PROPERTIES

NVW (%)	40
pH	7.5
Visc (cps)	2000
MFFT (°C)	35
Tg (°C)	35

### APPLICATIONS

wood  
plastic  
metal
