

## ALBERDINGK® LUX 430 ACRYLIC COPOLYMER UV CURABLE

### DESCRIPTION

LUX 430 is an acrylic and polyurethane copolymer that provides a very robust coating with good application properties. Its properties are similar to LUX399 with an added elastic nature.

### FEATURES

- Good block resistance
- Good flexibility
- Physical drying before cure

### TYPICAL PROPERTIES

NVW (%)	42
pH	7
Visc (cps)	50
MFFT (C)	0
VOC (%)	1.25
Koenig Hardness (s)	5
Koenig Hardness (s) After UV	90

### APPLICATIONS

UV  
Wood  
Plastic  
Furniture  
Kitchen cabinets
