

## ALBERDINGK® M 2068 RESIN-SUPPORTED STYRENE ACRYLIC

### DESCRIPTION

M2068 is a low T<sub>g</sub> resin supported styrene acrylic that can provide gloss and water resistance to inks and coatings. Its small particle size also makes it a good penetrating stain vehicle.

### FEATURES

- Small particle size for substrate penetration
- Good water resistance
- Good gloss
- Improves coating adhesion

### TYPICAL PROPERTIES

NVW (%)	48
pH	8.4
Visc (cps)	2000
MFFT (°C)	<10
T <sub>g</sub> (°C)	1

### APPLICATIONS

Wood  
Ink
